OMEGA3
AWARENESS
WEEK 2022

www.omega3awarenessweek2022.com

Omega-3 Awareness Week

**A whole week to raise
awareness about the
importance of Omega-3
in our diet.**

Omega-3 is key to our evolution, our physical and mental health and the future development of mankind.

Among others we seek to point the finger at one of humanity's biggest current problems: the continuous pollution and destruction of the ecology and marine life. Hence the destruction of our main natural source of long chain Omega-3 fatty acids, DHA and EPA.
